

## Juneau Pro-Choice Coalition Scholarship Program

We at the Juneau Pro-Choice Coalition (JPCC) are committed to women's access to safe and legal reproductive health services. The purpose of the JPCC Scholarship Program is to support the further education of Juneau high school seniors, university students, and adults working to further their formal education, who are devoted to these same reproductive self-determination values.

In 2021, the JPCC will award up to two \$1,000 merit-based scholarships on a competitive-basis to applicants who have displayed a commitment to these values.

### Eligibility:

Juneau Pro-Choice Coalition Scholarships are open to all Juneau high school seniors, university students, and adults working to further their formal education. Applications and supporting materials must be submitted to JPCC by the due date on our website, [juneauchoice.com](http://juneauchoice.com).

### Essay Prompt:

Please respond to one of the following two prompt options. Responses may take the form of a written essay or video. Essays should be 300-600 words; videos should be between 2-5 minutes and must have a written script of the video essay submitted via the online application form (scripts need not meet the same essay length requirements).

**Option One:** Please explain how your experience, education, and activities contribute to your ability to continue being a strong advocate for choice. This could include your most valued community commitments, academic achievements, and/or leadership activities. What and/or who motivated you to action?

**Option Two:** Imagine yourself ten years from now. What role will you play in and how will you impact reproductive rights?

Please submit your essay or video script using the application form link (PART B) on the scholarship page of our website. Video submissions may be directly emailed to JPCC at [juneauchoice@gmail.com](mailto:juneauchoice@gmail.com), or you can send us a link to a video hosting site like YouTube.
